ABOUT ME

As a Senior Tester with extensive experience in project management, test evidence documentation, defect identification, and managing junior testers, I bring a refined skill set to any team. My expertise in Agile Methodology, testing and debugging, collaboration, and quality assurance positions me uniquely to drive seamless execution in all testing phases. With a proven track record of delivering high-quality results and fostering a collaborative environment, I am a valuable asset to any organization.

WORK EXPERIENCE

- Senior Tester, eCogra, Durban

Jan 2021 - Present

 - Spearheaded end-to-end project management across multiple teams, ensuring timely and efficient delivery.
 - Conducted comprehensive initial project reviews and facilitated client and service walkthroughs.
 - Authored and maintained meticulous test evidence and final QA documentation.
 - Identified and documented defects, collaborating closely with developers for swift resolution.
 - Led daily stand-up and sprint retrospective meetings to drive project momentum and continuous improvement.
 - Managed junior testers, offering guidance and addressing queries to promote team development.
- Junior Tester, eCogra, Durban

Dec 2020 - Dec 2021

 - Conducted testing of online gaming software, ensuring high-quality performance and functionality.
 - Prepared test environments to facilitate smooth testing processes.
 - Created and executed comprehensive test cases to cover all use scenarios.
 - Documented test evidence meticulously for future reference and validation.
 - Gained extensive familiarity with the iGaming industry, staying updated with trends and technologies.
 - Performed functional and regression testing to verify system reliability.
 - Executed user acceptance testing to ensure optimal user experience.
 - Implemented integration testing for seamless system interactions.
 - Ensured adherence to company policies, processes, and procedures throughout all testing phases.
- Web Development Tutor, Zaio, Johannesburg

Dec 2020 - Dec 2021

 - Expert in troubleshooting and debugging code
 - Mentored and assisted students in web development
 - Adapted to dynamic, deadline-driven environments
 - Prioritized and problem-solved tasks concurrently
 - Conducted thorough code reviews
 - Collaborated with a team of seasoned developers
